Here's a list:
https://www.techradar.com/news/internet/web/top-free-hosting-for-uk-businesses-1214296

Promising:

https://www.5gbfree.com/hosting-plans/

5 GB file space
20 G bandwidth
3 MySql databases
PHP support

http://freehostingnoads.net/webhosting.php

20 G file space
200 G bandwidth
3 MySQL databases

https://www.000webhost.com/

1 G file space
10 G bandwidth
MySQL
PHP

https://www.freehosting.com/client/cart.php

10 G file space
Unlimited bandwidth
1 MySQL database

Node Js hosting

https://www.heroku.com

- heroku advantage: full git integration
- limits: , the uncompressed size of a checkout of HEAD from the repository, combined with the size of restored submodules, cannot exceed 1 GB. (this might not be a problem for our project size)
